About Me

My strong background in computer engineering, combined with hands-on internship experience in data science and web development, makes me the best candidate for this job. I'm eager to apply my skills in a real-world setting and contribute to innovative projects. My passion for technology and problem-solving drives me to excel and bring value to your team.

Education

- *GITAM UNIVERSITY | 2021 - PRESENT | Bengaluru*
  Bachelor of Technology - Information Technology; GPA: 7.43

- *Sri Chaitanya Techno School | 2019 - 2021 | Bengaluru*
  Senior Secondary Education - Information Technology; GPA: 7.2

- *Air Force School | 2019 | Bengaluru*
  Primary Education - Percentage: 74%

Skills Summary

- **Languages:** C, Python, SQL, HTML, CSS, Javascript
- **Soft skills:** Leadership, Event Management, Public Speaking, Time Management
- **Tools:** Git, MySQL, UIUX
- **Platforms:** Web, Windows, Linux, AWS, GCP, Figma

Internship

- *AICTE Virtual Internship | Cloud Virtual Internship | 2023(Sept - Nov)*
  - Gained foundational knowledge in cloud computing concepts and infrastructure during the AICTE-EduSkills Virtual Internship
  - Acquired theoretical understanding of cloud architecture, services, and deployment models
  - Practiced using Google Cloud Platform for virtualized environments and cloud service implementation

Projects

- **Chat Bot Developer | Google Cloud, NLP, Machine Learning**
  - Created a chatbot using Google Cloud services, leveraging natural language processing and machine learning for seamless interactions.
  - Incorporated features like sentiment analysis to deliver personalized, efficient communication.
  - Demonstrated the power of cloud-based solutions in building intelligent and responsive conversational agents.

- **Smart Street Light System | IoT, Sensors**
  - Developed a smart street light system utilizing IoT devices and sensors to dynamically adjust lighting based on environmental conditions and traffic patterns.
  - Enhanced energy efficiency and urban infrastructure by optimizing light usage through real-time data integration.

- **Web Application Developer | E-commerce, HTML, CSS, JAVASCRIPT**
  - Built an innovative e-commerce website offering a diverse range of products with user-friendly navigation and secure transaction features.
  - Focused on delivering an effortless shopping experience, suitable for both daily needs and special purchases.

- **Hangman Game | Python, Pygame**
  - Developed a Hangman game using Python and the Pygame library on the PyCharm platform.
  - Implemented interactive gameplay mechanics with graphical elements, including word guessing, hangman graphics, and win/loss states.
  - Enhanced user experience with smooth animations and real-time feedback, demonstrating proficiency in game development and graphical interfaces.

Certifications

- Chatgpt: The Bootcamp for Beginner with Practical - Udemy
- Certificate for foundations of User Experience (UX) Design - Coursera
- AWS Academy Cloud Foundations - AWS Academy
- Project Management Fundamentals - IBM
- Python Fundamentals - Great Learning
