**GPA** **7.2** / 10

### Borad of Secondary Education
Air Force School

📅 2019

**GPA** **7.4** / 10

## PROJECTS

### The Smart Classroom Senior Project
Hackathon

📅 06/2022 - 06/2022

- The Smart Classroom Senior Project integrates innovative technologies to enhance the learning environment
- By incorporating interactive displays, IoT devices, and automated systems, it fosters a dynamic and collaborative atmosphere
- This project aims to optimize teaching methods, engage students, and streamline administrative tasks, creating an intelligent and efficient educational space for the future

### Chat Bot Developer
Our mini project

📅 11/2022 - 12/2022

- Our mini project involves developing a Chat Bot using Google Cloud services
- Leveraging natural language processing and machine learning, it enables seamless interactions
- With features like sentiment analysis, it ensures personalized and efficient communication
- This project showcases the potential of cloud-based solutions in creating intelligent and responsive conversational agents

### Smart Street light
Hackathon

📅 07/2023 - 07/2023

- Smart street lights utilizing IoT devices integrate sensors and connectivity to optimize energy usage and enhance urban efficiency
- Dynamically adjusting lighting levels based on environmental conditions and traffic patterns

### Web Application Developer
Web Application-1

📅 12/2023 - 12/2023

- Web Application-1 is an innovative e-commerce website designed for effortless shopping
- It features a wide range of products, user-friendly navigation, and secure transactions
- Ideal for both everyday needs and special purchases, it ensures a satisfying online shopping experience

## SUMMARY

My strong background in computer engineering, combined with hands-on internship experience in data science and web development, makes me the best candidate for this job. I'm eager to apply my skills in a real-world setting and contribute to innovative projects. My passion for technology and problem-solving drives me to excel and bring value to your team.

## SKILLS

Python     Cloud computing     Java

C     Linux     DBMS     Iot

Machine learning

## PASSIONS

💎 Discovering new technologies

💎 Music

💎 Playing keyboard

💎 Reading books
